

ALL-OUT SUB ATTACK BY NAZIS IS LOOMING

REPORT TANK BATTLE RAGES AT LENINGRAD

Reds Claim 25,000 German Troops Killed In 13 Days of Fighting

RUSSIANS FALTER, IS BERLIN STORY

High Command Says 36 Foe Warships Destroyed In Two Months

(By Associated Press) A heavy battle of tanks and men with the combat tempo "rising with every hour that passes," was reported raging on the Leningrad front today, and the Russians declared 25,000 German troops had been killed and huge war supplies captured in 13 days of fighting around the old Czarist capital and at neighboring Staraya Russia.

It was not immediately clear whether the Russians were making a major attempt to break out of the long-besieged northern metropolis, or whether the Germans were on the offensive, hoping to knock out that long and stubbornly defended barrier.

Reds Capture Nazi Center

The Leningrad radio, however, reported that Red army troops had captured a fortified settlement which served as the center for several German-held villages. Soviet dispatches said 15,000 Nazis had been slain in the Leningrad fighting and 10,000 at Saraya Russia, where the German 16th army has been trapped for weeks.

Adolf Hitler's field headquarters reported a "noticeable lessening" of the great Russian winter drive and for the third successive day stressed German offensive operations, asserting that Nazi troops had captured "a fairly large number of villages."

The German high command claimed its navy had sunk 36 warships, including a British cruiser and eight destroyers, during February and March.

"Another 47 warships, including 10 cruisers, 11 destroyers and five submarines were damaged in offensive operations by German naval forces and in air attacks by the Luftwaffe," the Nazi communique said.

Shipping Insurance Goes Up

London underwriters announced sharp increases in war-risk insurance for shipping.

The Berlin radio boasted that U-boats for Atlantic operations were housed "like cars in a garage" in new concrete-roofed drydocks built along the west coast of Europe.

In aerial warfare, RAF night bombers returned to the assault on German war foundries in the suburbs of Paris, attacking the Matford truck works for the second straight night, while Nazi raiders pounded "hell's corner" on the southeast English coast.

The Germans said Dover and Portland were the chief targets.

And We Do Mean FIRE

FORT RILEY, Kas.—A group of soldiers was holding machine gun practice.

"Ready, aim—," intoned the officer.

Just then Ann Sheridan, movie oomph girl who was visiting the camp, walked by.

"Fire."

Tracer bullets, landing far wide of the target, started a grass fire which swept 100 yards before being extinguished.

Torpedoed, Baby Born in Lifeboat

—I. N. Phonephoto
Mrs. Desarka Mohorovicic

Meet one of the bravest women in the world, Mrs. Desarka Mohorovicic, 28, who gave birth to an eight-pound baby boy without anesthesia in a crowded lifeboat in the Atlantic after the ship on which she was a passenger was torpedoed off the U. S. coast. Dr. L. H. Conly of Brooklyn, N. Y., the ship's doctor, delivered the child in total darkness with simple instruments although he himself was in agony because of two broken ribs. Mrs. Mohorovicic is the wife of an attaché of the Yugoslav consulate in New York and is shown recovering from her ordeal at a Norfolk, Va., hospital. Her two-year-old daughter, Visna, also rescued, is shown with her and baby.

Ten Golden Eggs To Yield Prizes — \$1 'Victory' Stamps

Ten golden eggs will be the principal prizes as Salem youngsters scurry through Reilly stadium tomorrow in the annual Easter egg hunt conducted jointly by Joe M. Kelley, city recreation director, and Bert B. Bunney, his able if somewhat ethereal assistant.

The youngsters will toe the line at 10 a. m. and a signal by Kelley will start the wild scramble.

But about those golden eggs — they're something new this season.

Each youngster who digs up one of the golden eggs will receive \$1 worth of "Victory" stamps. Mr. Bunney thinks this sounds a little more vigorous than merely defense stamps.

So there's something really worthwhile, kidders, to shoot at tomorrow.

Kelley and his aids are up to their elbows in eggs today at the Memorial building. The water is boiling and bubbling, the eggs are steaming and, all in all, it looks like they're cooking up something fine for you youngsters.

Remember, though, the field for this year's hunt has been narrowed. There will be only one hunt — at Reilly stadium — instead of at various schoolyards as in the past, and only those youngsters who are 8 years of age or under will be eligible.

INSTALL OFFICERS AT ELKS' MEETING

Norman W. Kelly, a past exalted ruler of the Salem Elks lodge, served as installing officer last night when new officers of the lodge were inducted at rites which followed a 6:30 dinner.

Cloyd W. Reynard was installed as exalted ruler, succeeding Lloyd Robusch.

Other officers are: Esteemed leading knight, James R. King; loyal knight, Russell E. Myers; lecturing knight, William Potts; secretary, G. Kenneth Mounts; treasurer, A. R. Stark; Tyler, H. S. Rogers.

Trustees: L. O. Gibbons, N. W. Kelly and Roland Zimmerman. The program also marked the monthly birthday dinner of the club.

ARMY BOMBER CRASHES: 5 DIE

Tragedy Occurs in Rhode Island; Three Others Die At Columbia, S. C.

(By Associated Press) WEST GREENWICH, R. I., April 3.—An army medium bomber crashed into the woods here today and exploded, killing all five occupants, two officers and three enlisted men, the first corps area announced.

The plane was on a routine flight and a craft of that type was overdue at Westover field, Chicopee, Mass., the announcement added.

Officers said names of the supposed victims would be announced only after confirmation of death. They were believed to be the pilot and co-pilot, both second lieutenants; a staff sergeant, radio operator and two privates, the bombardier and gunner.

Residents reported that they found two bodies but could not get close to the plane because of terrific heat and dense smoke. A roaring forest fire was put out. The explosion tore a crater 15 rods in diameter.

Military intelligence identified the victims as:

Second Lieut. George L. Dover, 24, pilot, Shelby, N. C.; 2nd Lieut. N. W. Frame, 24, co-pilot, Porterville, Calif.; Staff Sergeant R. H. Trammell, 21, radio operator, Brunswick, Ga.; Pvt. R. R. Meredith, 21, bombardier, Memphis, Tenn.; Pvt. T. J. Rush, 27, gunner, a resident, Philadelphia.

COLUMBIA, S. C., April 3.—Three occupants of an army plane were killed today when the plane crashed at the Lexington airport, five miles southeast of here.

Public relations officers at the field said the plane was piloted by 2nd Lieut. G. F. Hayman, Jr., with 1st Lieut. A. C. Darden and Sgt. O. D. Fischer as co-pilot and mechanic. They were killed outright.

The plane crashed and burned shortly after it had taken off for a return flight to Augusta, Ga., about 9 a. m.

Authorities at the men's Augusta base said Hayman was from Tampa, Fla.; Darden from Franklin, Va., and Fischer from Little Rock, Ark.

366 U.S. War Prisoners Held In Japan Are Well Treated, Says International Red Cross

Taken Mostly From Gilbert, Wake and Guam: However, They Are Asking More Entertainment, Fancier Food and Mail From Homes

(By Associated Press.)

WASHINGTON, April 3.—The 366 United States prisoners of war, who were captured on Gilbert, Wake and Guam islands by the Japanese and interned at Zentsuji, island of Skikoku, are being well treated, the International Red Cross reported in a cablegram made public today by Rep. White (D-Idaho).

However, the men want more entertainment, fancier food and mail from the folks back home.

This was the most detailed account received through neutral sources to date on the welfare of men who fell into enemy hands.

Rep. White was chosen to release the report, presumably because many of the soldiers and civilians captured in the American outposts were residents of Idaho, Oregon and Washington. The civilians were engaged in military construction work on the captured islands.

The cablegram from an agent of the International Red Cross was transmitted to the navy department here and then turned over to White. It said in part:

"Have visited camp for prisoners of war at Zentsuji March 12 accompanied by aid from the information bureau and the Japanese Red Cross. Camp on large island of Skikoku in the north near inland sea on fertile plain between hills covered with pines; good climate; no endemic diseases.

Near Market Town

"Market town of Zentsuji with 25,000 inhabitants nearby. Camp covers six acres surrounded by barbed wire and a wooden fence. Two army barracks, two stories high, well ventilated, capacity 500; present number 374. One Englishman from Shanghai, two Dutchmen, five Australians and rest Americans of whom eight are from Gilbert island, 20 from Wake and the rest from Guam; 45 officers, 10 doctors, two dentists, one dentist.

"Barracks recently divided into rooms of from one to 14 camp beds, each having five blankets, a pillow and mattress for officers. Heating by modern stoves.

"Daily rations 300 grams of bread, 300 rice, 160 wheat plus potatoes, sweet potatoes, green vegetables, fish, eggs, etc. Total 3,200 calories. Wheat, sugared food and in this season, fruits, are rather rare. Young and active prisoners are losing weight, old and idle prisoners gain weight.

"Cooks chosen from prisoners work in separate kitchens which are large and clean.

"Tobacco ration is 10 cigarettes per one to three days according to rank. Daily laundering; good hygiene; large hot Japanese bath daily for workers and weekly for officers. Latrines clean and isolated.

"Fifteen wounded in infirmary of whom seven wounded by bombs and one had leg amputated above the knee. All getting along well. No dead. American dentist wants to practice. We will procure instruments for him.

"Want Books, Sports Equipment. "Prisoners wish books, equipment for sports and games, piano, typewriters. Protecting power will take charge of that.

Lisbon Man Making Valiant Battle To Serve Uncle Sam

GOES TO GREAT LENGTHS TO GET INTO SERVICE; RECOVERING NOW FROM OPERATION, LAST HURDLE

LISEBON, April 3.—The army can use men with the fortitude of Jack Clunk, 28-year-old Lisbon resident. Clunk isn't in the army yet, but it isn't his fault.

Right now he's in the Salem City hospital recovering from a hernia operation, which, the doctors tell him, will place him in the category of those physically fit for military training.

Clunk's story, which should shame anyone attempting to dodge the draft, without cause, runs something like this:

First, he tried to enlist in all branches of the service, but was turned down because he has a denture.

Undaunted, he wrote to Congressman Michael Kirwin in Washington and appealed to State Selective Service officials. He finally obtained a "waiver" on his teeth, even making a special trip to Columbus to get the O. K.

Soon afterwards he passed his army physical examination at Canton, quit his job with a Lisbon printing house, sold his automobile and on March 18 departed for Camp Perry along with other members of a draft contingent.

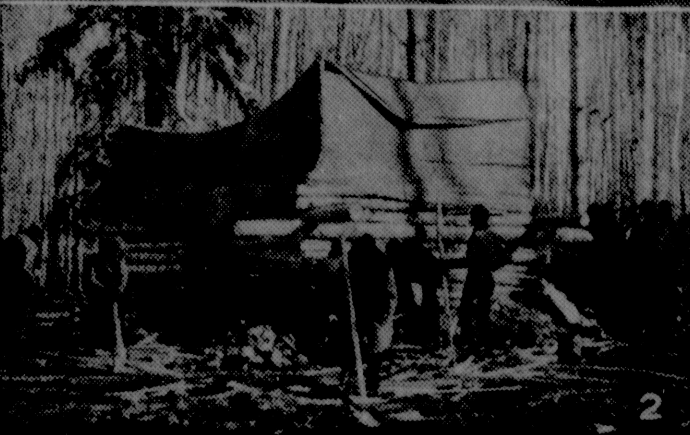

An army doctor at Camp Perry discovered a double hernia and Clunk was dispatched back home post-haste.

Clunk, in his hospital room, is hoping that the "third time charm" will work in his case. He is the son of Mr. and Mrs. Raymond Clunk, N. Beaver st., Lisbon.

Red Cross Collects Cuffs Off Trousers

WASHINGTON, April 3.—The American Red Cross will collect from the country's clothing stores the wool clipped from trouser legs in obedience to the no-cuffs-on-pants order of the war production board.

Decision to make the Red Cross the central collecting agency was reached by Mrs. Dwight D. Davis, volunteer service director of the organization, and Irving Squires, head of WPB's men's clothing section.

Selling the wool clips into proper channels for converting them into reprocessed wool should bring into the coffers of local Red Cross chapters between \$1,000,000 and \$2,000,000 annually, said Irving Squires, head of WPB's Men's Clothing section.

WASHINGTON, April 3.—The war production board really meant it when it said men were going to have to do without trouser cuffs on new suits. The WPB apparel section warned today that persons who have unfinished trousers delivered to their homes with the intention of adding cuffs later could be made subject to \$10,000 fine and a year in prison.

AXIS HOPES TO SLICE SUPPLY ROUTE TO REDS

U-Boat Pack of 400 or More Expected To Be Let Loose In Atlantic

SUE DEPREDAATIONS ARE HIGH ALREADY

Details Meager, But Analyst Chalks Up 94 Ships Lost to Date

By DEWITT MACKENZIE
Wide World War Analyst

With the swelling of the bloody battle along the great Russo-German front, and intensification of Hitler's preparations for offensive operations which may cut in several directions, we are told by reliable sources in Washington to expect the all-out Nazi U-boat drive forecast many weeks ago.

It's estimated that the Nazis will let loose in the Atlantic a submarine pack of anything up to 400—maybe more—to prevent the United States from transporting equipment to Europe, especially to Russia.

Piling Up Equipment

The unwelcome fact is that we now are piling up equipment which we cannot move because of the immediate lack of ships. Hitler is sinking them.

Already the depredations of the U-boat's sea-wolves have been heavy. Official details naturally are meager. Washington announcements generally employ blunt, succinct language.

From the time of Pearl Harbor to March 28, the officially announced sinkings on this side of the Atlantic were: Off the U. S. coast, 49; off Canada, 21; in the Caribbean, 23; off South America, 1; total 94.

That's a lot of good ships gone to the bottom. And the anxious work of a host of good men—tanks, airplanes and what not—presumably has been lost, not overlooking the precious oil tankers and their cargoes. Still, we can get some satisfaction from the fact that, as was remarked Wednesday by Rear Admiral Simons, commandant of the fifth naval district, the Axis has "paid a terrible price in both submarines and men."

With the allied necessity of rushing war material to the Soviet for the spring fighting, the route to the Russian port of Murmansk has become of vital importance to the Allies. This Arctic rail-head is the hopper through which supplies are fed into the great Red Mill which has been grinding out victory.

And upon this route the Nazis are concentrating heavy attacks.

DRIVER KIDNAPED, TAXICAB STOLEN

Gunman Takes Cab, Forcing Salem Operator Out Near Minerva

Robert Johnson, 30, driver for the Mercury Cab Co., was abducted by a gunman who finally forced him from his cab on Route 30, about seven miles west of Minerva, early this morning, according to police and state highway patrol reports.

Teofil Andrei, Jr., operator of the firm, told Patrolman Paul Ormsby that the man came to the taxi office, 190 W. State st., a few minutes after 1 a. m. and asked to be driven to the Pennsylvania railroad depot.

Shortly after Johnson started for the station, the customer stuck a gun against the driver's back and ordered him to drive to Lisbon. At Lisbon, Johnson was forced to drive west on Route 30, eventually reaching Minerva. About seven miles west of there the man forced Johnson from the car after taking about \$10 which the driver had in his possession. The bandit then sped away in the car.

Johnson walked back to Minerva, police said, where at 3 a. m. he telephoned Andrei. The latter notified police, who had a description of the gunman and the taxi broadcast over the state highway patrol radio.

The man was described as about 25 years old, tall and wearing a light tan sport coat and a dark brown hat.

The green colored automobile bore license plates L-467-H.

IT WAS WORTH TRYING

Signs multiply that the Roosevelt administration is not going to let anything happen in the form of labor law revision that might incur the criticism of organized labor leaders. Administration leaders in the senate proved the other day they are willing to go to extreme lengths to hold revision at arm's length.

Their argument, boiled down, is this: That the country can't afford to do anything to excite organized labor at this time; it must let well enough alone; there isn't any reason for being critical of the 40-hour week because the whole thing is a misunderstanding anyway; and besides all criticism of organized labor is "inspired."

This is, of course, palpable nonsense, but it happens to be official nonsense and, therefore, of great importance. Before the question that was implicit in criticism of the Roosevelt administration's hands-off attitude is buried under 10 tons of guff, it should go on record somewhere that the idea of doing something about it was worth trying.

It was worth trying because some day a research scholar may wonder how it happened that, with so many points of friction between the labor minority, the government that had decided organized labor could do no wrong and the people who were paying the freight for a policy of giving workmen a bonus for working more than five eight-hour days in a national emergency, someone didn't squawk. A lot of Americans did squawk, but it was officially decided not to pay any attention to their squawking.

PRUDENCE WOULD HAVE BEEN BETTER

Under the lash of necessity a great many things, such as turning back empty tubes made partly of tin, are being done that might have been done long before this. For instance, enforcement officials claim they now are going to enforce 40-mile speed limits to save tires, though it usually was rejected as impossible to enforce higher limits to save life.

War makes all things possible. No expense is too great, no economy too small. While prudence would have seemed to be better in many cases than desperation growing out of an almost total disregard of prudence, it is only second-guessing to say anything about that. With a sorrowing thought for all the tooth paste and shaving cream tubes that might have been salvaged in years past to avert a tin shortage in 1942, patriots now will save them in the future—will save them or won't be able to renew his supply at the drug store.

It's war, and there's a lot of ground to be made up that never would have been lost if prudence had been the best policy before war began.

THE STARS SAY:

For Saturday, April 4

AN UNUSUALLY lively and eventful day is read from the predominant astral configurations, with much of a business, professional and literary nature engaging the attention. It should be a splendid aspect for writers, publishers, advertising and press agents or others in promotional enterprises. But these as well as other activities may develop strange or surprising angles, possibly with romance, adventure or the unpredictable materializing. This may incite nervous tension or other physical as well as psychological effects.

If It Is Your Birthday

Those whose birthday it is may be confronted by a year in which the romantic or adventurous and strange may upset all steady and systematic calculations. With calmness, restraint and poise under such challenging circumstances, there may be surprising benefits and thrilling experiences.

A child born on this day should be financially favored, with many promises of success and independence, but this may be negated by either ill health, nervous tension or ungoverned romantic impulses.

MORGENTHAU'S PLANS UPSET

WASHINGTON, April 3.—House ways and means committee predicted today that many of Secretary Morgenthau's revenue proposals would be rejected when the committee draws a new \$7,610,000,000 tax bill.

"About the only thing the committee seems willing to accept right now is the amount," two members said. Morgenthau had recommended the \$7,610,000,000 increase over this year's record breaking revenue law.

Completing exactly one month of hearings on the treasury department's recommendations, Chairman Doughton (D-NC) said that closed sessions on the new tax bill probably would begin about April 20. The measure probably will not reach the house before June 1.

A survey of the committee members indicated that if votes were taken today the administration program would fare as follows:

Morgenthau's recommendation against sales tax. A clear majority favors either a manufacturers' or retail sales tax, in order to be able to scale down Morgenthau's request for steep increases in both individual and corporation taxes.

\$3,200,000,000 more from individuals: Except as a last-ditch source of revenue, such a program would be rejected on the ground that it would double the average individual's tax so closely upon last year's trebling of income taxes.

\$3,060,000,000 additional from corporations: Much too high, what with combined normal and surtaxes starting at 55 per cent, and excess profit rates ranging up to 75 per cent. Rates appear to be almost confiscatory, some members declare.

\$1,344,000,000 from new and increased excises: Rejected if a sales tax is adopted; otherwise accepted for the most part, but only as a temporary, war measure. Major revenue would come from increases on distilled spirits, a doubling of the present cent and one-half tax on gasoline, and on cigarettes.

Compulsory joint individual income tax returns by husband and wife: Acceptable as a war measure, with the prospect that it would attract more votes than last year when it was defeated in the house after winning committee endorsement.

Taxation of state and municipal securities: Probably would be rejected because of the effect on outstanding indebtedness and on future security flotations.

Elimination of the present so-called percentage depletion allowance for oil well operators: Opposed because it might interfere with maximum production of petroleum.

Withholding income at the source as a means of collection: Opposed on the ground that the average person would prefer to make his own plans to meet his tax payments next March 15.

Rep. Disney (D-Okla.) appeared to voice the sentiment of many committee members when he said yesterday:

"We can not possibly raise \$7,000,000,000 (from additional individual and corporate taxes) so we will be compelled to go to a sales tax, much as we dislike it. x x x a sales tax would be a 'war tax' in which the whole population would participate."

He said that a survey made for him showed that 190 of the first 225 house members with whom the question was discussed said they would favor some form of sales tax. The house membership is 435 and a majority would be 218.

Great Strides Have Been Taken Since Revolution

By LOGAN CLENDENING, M. D.

An army doesn't begin to fight battles without realizing very soon that it needs to organize an army medical department. Looking back on America's wars, that became evident in the first of our conflicts.

Dr. Clendening will answer questions of general interest only, and then only through his column.

At Lexington and Concord there was no medical department organized and everybody was evidently too busy fighting to notice the lack of it.

At Bunker Hill one of the most noted American surgeons, Dr. Joseph Warren fell fighting, as well as several other patriotic physicians, but after Bunker Hill it became evident that some organization must be formed. The large number of wounded showed the need for military hospitals and shortly one was established at Cambridge.

In Revolutionary Times
During the Revolutionary war there were several disgraceful quarrels among the medical men at the top, but an effort was made by Washington and even General Gates to put such matters on a non-personal, non-political basis.

Supplies and care of all kinds were naturally crude compared to ours. Some of the wounds characteristic of frontier fighting as described in the case records make frightful reading. I find, incidentally, the case of a man who was completely scalped, recovered, and was quite satisfied with his new cranial covering even though it did not consist of hair.

Injuries From Propellers
Every conflict has, I suppose, its peculiar forms of wounds. The most ghastly thing I saw in World War I were the injuries to airplane pilots or ground men from flying propellers.

In the Civil war the medical department for the first time in history developed an efficient system of collecting and sheltering and rapidly giving first aid treatment to large masses of wounded.

In our Civil war, too, ether and the blessed benefits of anaesthesia by means of ether were first made known. But surgical asepsis was not yet perfected and hospital gangrene, as it was called, must have been terrible. In each regiment, then, the band was part of the typhoid corps.

Typhoid and Malaria
The Spanish-American war was principally noted for the fact that typhoid vaccine was not used and typhoid fever and malaria did far more damage than all the Spaniards and Emilio Aguinaldo combined. Typhoid vaccination was introduced by the English physician, Almoh Wright, tentatively in 1894, but not in its present perfected form until ten years later, and it was first introduced in the field in the Boer war in the British army.

Every war also has its own kind of disease. In the Civil war intestinal diseases were the scourges. In the Spanish-American war, as I have said, typhoid and malaria. In World War I we had solved the problem of typhoid by vaccine and of dysentery by sterilized water and pasteurized milk, but the problem of acute infections—pneumonia and influenza—nearly drove us to distraction. To say nothing of spinal meningitis.

QUESTIONS AND ANSWERS
Wondering: "I have been informed that in cases of identical twins, if one of them is the father of children, the other will be childless."

Answer: You have been misinformed.
EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, 235 E. 45th st., New York. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

SCHOOL NEWS AT DAMASCUS

Pins have been awarded to the Home Economics students who presented the best compositions on home economics. Those receiving pins are:

Ninth grade—Geraldine Hively; Tenth, Helen Starbuck and Evelyn Burdick; Eleventh and Twelfth, Olive Carter and Josephine Hans.

Boys' class—Glenn Hoffer and Norman Weingart.

Those listed for honorable mention are: Evelyn Schneider and Verle Mounts. Judges were Josephine Hans, Barbara Geiger, Joyce Hollinger and Eleanor Slagle.

A moving picture entitled "Ray-on Today" was shown to the home economics classes recently.

The next council meeting of the Home Economics club is to be held with Ruth Hollabaugh Monday evening, April 6.

Group pictures were taken of the Goshen High school pupils for the school annual, The Goshonian.

The following groups will be used: Seventh, Eighth, Freshman, Sophomore and Junior home rooms; band, chorus, Latin club, Junior and Senior Shorthand clubs, Home Economics club, cheer leaders, Booster club, Boy Scouts, Varsity basketball, Reserve and Freshman basketball, seventh and eighth grade basketball, academic students and the "Miss Print" staff. Goshen Township will dispense with school sessions today and Monday.

The academic contest will be held Monday evening at Canfield. The two students who place highest in their fields will take part in the district scholarship test at Kent in May.

Members of the Freshman class went to Canfield Wednesday for the tuberculosis test and the Seniors took the test Thursday.

POUGHKEEPSIE, N. Y. — Mid-Hudson real estate operators report increased business because of the war. Many summer homes and cottages are being leased and sold. Realtors believe the fear of possible New York city air raids may be partially responsible.

Officers Are Installed At Dames Of Malta Meeting

Installation of new officers of Peace sisterhood No. 189, Dames of Malta, was conducted at the K. of P. hall last night, following a regular meeting, by Mrs. Mary Pabst and her staff from Puritan sisterhood in Youngstown.

Mrs. Russell Stern is the new queen and Mrs. A. B. Combs, retiring queen, is protector. Other officers are: Ruth, Mrs. Dwight Getz; Naomi, Mrs. Everett Dean; herald, Miss Gwen Dean; assistant, Mrs. Ebel Buehler; color-bearers, Mrs. Lawrence Sanders and Mrs. James Horton.

Keeper of the archives, Mrs. Paul Patterson; assistant, Mrs. Mae Coughenour; bursar, Mrs. Robert Fiets; pianist, Mrs. Frank Weitz; trustee for 18 months, Mrs. Lewis Brown; messengers, Mrs. Robert Sheen and Mrs. Harold DeRoads; guards, Mrs. C. I. Beeler and Mrs. Clyde Smith.

Mrs. Smith was named representative to the Zenodacia session at Pittsburgh in September.

Gifts were presented to the installing officer and her team and lunch was enjoyed later at the Knotty Pine room of the Hotel Lape.

The next session will be held April 16.

Rev. Carl Asmus led devotional service and group singing.

Mrs. J. J. Dornon, program chairman, presented Mrs. Glenn Harding, who sang "My Task", accompanied by Mrs. Charles Cornwal.

The tables were attractive with Easter appointments.

The social committee was Mrs. P. C. O'Neil, Mrs. F. J. Thompson, Mrs. A. S. Fisher, Mrs. J. J. Ketterer, Miss Bessie Gibbs and Mrs. Dornon.

The next meeting will be held May 6 in charge of Mrs. L. P. Koenreich and her committee.

Red Cross Plays Vital Part In Civilian Defense Program

The vital role the Red Cross is playing in training the public for civilian defense is indicated by the organization's present program here, which includes the series of classes which will be held for first aid instructor training beginning Monday night and continuing through the following Friday night. Classes for persons who have completed both the 20-hour standard and the 10-hour advanced courses will be held in the Memorial building.

Graduates of the classes will be qualified to conduct first aid classes, local chapter officials point out.

"We feel that our local chapter will be performing a distinct and much-needed service to the community and to civilian defense by training everyone in the rudiments of first aid," officials said in announcing the new course which will provide many more instructors and permit larger numbers of people to learn first aid.

While the classes are now holding for defense workers and groups of civilian defense volunteers are essentially the same as those the Red Cross has been giving for years in an effort to cut down fatalities and lasting injuries in automobile, home and industrial accidents, they do teach enrollees what to do for victims of belligerent action.

Many Lives Saved

"At Red Cross national headquarters in Washington reports are received daily recounting instances in which first aid training is saving the lives and preventing accidents and permanent injuries. In our own state and county we also know of many instances where knowledge of first aid meant the difference between life and death."

Local chapter officials urge all persons interested in qualifying as instructors to enroll in the classes to be held next week.

T. C. McDaniel, Jr., field representative of the first aid, water safety and accident prevention service of the American Red Cross will be the instructor for the series. Three years of work as a volunteer in the first aid work for the Red Cross, and his former work as coach, teacher and athletic official have qualified him as an instructor in the first aid service.

MORE LEEWAY SEEN IN NEW CAR SALES

Price Official Informs That Some Boards Have Been Too Strict

CLEVELAND, April 3.—Automobile dealers took the bit in their teeth today and went out to sell new cars after a price administration official informed that many rationing boards had been too strict as to eligible new car buyers.

Simultaneously, the government official announced OPA would place price ceilings on used cars within a week or two, but no rationing of second hand machines is planned.

Quotas Not Sold Out

Cyrus McCormick, III, chief of OPA's automobile and truck section, yesterday told a conference of more than 1,000 dealers, salesmen, rationing board members and others that the government expected the full quotas of new cars to be sold but that in most cases this had not been done.

Although McCormick did not order rationing boards to liberalize their standards, he cited several instances where he thought new cars could have been granted.

"The basic thought behind automobile rationing is to distribute the non-pool stock of cars in an orderly manner to the preferred classifications of purchasers with approximately a year," he said.

"There have not been enough applications filed, and it is the duty of the dealers to create in the public mind that transportation for war workers must continue."

"It is not a crime to own a new automobile. It is a crime for a person who needs an automobile in war work not to have one."

McCormick pointed out that regulations state new cars may be sold to persons "directly or indirectly" engaged in war work. Those eligible were to be determined entirely by the local rationing board, and OPA would in no way interfere with local interpretations.

But, he added, the word "indirectly" was purposely put in to enable a free flow of cars. More new cars on the streets will bring more second-hand machines to the dealers, and it is these cars which are looked to for fluidity of transportation.

When rationing board officials asked that McCormick put in writing what they called his more liberal interpretations, he declined, saying Washington did not want to regiment the boards. As an example, he said, whether it shall require applicants to appear before it when considering new car requests, the OPA has no regulations on board attitudes.

CLEVELAND CHOIR SINGS HERE SUNDAY

The Cleveland Bible College choir, under the direction of Philip J. Mack, will be heard at 7:30 p. m. Sunday at the First Friends church.

The group, which is well known to members of the various churches of this vicinity, is made up of 30 well blended voices. They are accompanied by Marcell Cox Mack.

Their program will be:

"Now Let Every Tongue," (Bach).

"I Sat Down Under His Shadow," (Baird).

"Lost in the Night," (Christian).

"Lord of Spirits," (Reissiger).

"Deep River," (Arr. by Dett).

"Couldn't Hear Nobody Play," (Arr. by Cain).

"Listen to the Lambs," (Arr. by Dett).

"Cheer the Weary Traveler," (Smith).

"Jesus Is Real to Me," (Schuler).

"God Understands," (Ackley-Soderstrom).

"Onward, Christian Soldiers," (Jude).

"O For a Thousand Tongues," (Arr. by Soderstrom).

"Choral Benediction," (Lutkin).

Church Leader Succumbs

MEYERSDALE, Pa., April 3.—Funeral services will be held in Youngstown, O., Monday for Dr. Albert S. Glessner, 73, last president of the East Ohio classis of the Reformed church. Dr. Glessner, who lived in Berlin, Pa., after his retirement in 1934, died yesterday. He formerly lived in Youngstown. His widow and three children survive.

Out of Danger

CLEVELAND, April 3.—The condition of Archbishop Joseph Schrembs, seriously ill since he was stricken with pneumonia eight days ago, is unchanged this Good Friday. St. John's hospital reported. The prelate was described as restless. His physician reported Wednesday that Archbishop Schrembs was believed out of danger.

Suggests Service Flag

WASHINGTON, April 3.—Rep. Stephen S. Young, Cleveland Democrat, introduced a bill to create a national service flag—an emblem with a red border, white field and blue, silver or gold stars above a blue letter V.

Heads WPB Operations

DETROIT, April 3.—Hugo Weissbrodt, former general manager of the International Harvester Company's Springfield (O.) plant, has been named chief of field operations for the war production board's Detroit region.

River Yields Body

LAWRENCEBURG, Ind., April 3.—The Ohio river gave up the body of Worley Burchfield of Henderson, W. Va. He was one of 16 persons drowned after a towboat crashed into a bridge pier at Cincinnati Feb. 22. Seven bodies have not been recovered.

DECIDES NOT TO TAKE PROMOTION

CONNEAUT, April 3.—M. D. Adams said today he could not accept a promotion to principal of the Conneaut High school, a move which precipitated a strike of the school's students.

Adams, who now heads the Junior High school, informed Supt. Norman Kuntz that "I am convinced that to accept this position without the undivided support of the board and against apparent public disapproval would be highly inadvisable."

The students left their classes Wednesday when the superintendent announced that V. R. Henry, the high school principal, would be replaced. Many paraded with banners reading, "we want Henry." Only 15 of the 436 pupils attended classes yesterday.

LIMA, April 3.—All students except seniors at the Beaverdam school, 10 miles northeast of Lima, walked out at noon Thursday when they learned Miss Rita Hankish, high school home economics and music instructor, would not be re-employed next term.

Classes were closed today for Good Friday.
Supt. Clifford Paul declined comment "until I see my lawyer."
Miss Hankish is completing her fourth year in the school.

Called To Army

PROBE STANDARD'S PETROLEUM TRADE

Surprise Witness Will Be Called, Says Senator Truman

WASHINGTON, April 3.—The senate defense investigating committee inquired today into circumstances under which Standard Oil interests in Brazil supplied petroleum early in 1941 to an Italian airline operating between South America and Africa.

Saying that a "surprise" witness would be called in connection with the inquiry, Chairman Truman (D-Mo) declined to identify him.

The committee's interest in the matter, he said, was aroused by records of Standard Oil company (New Jersey) which Thurman Arnold, anti-trust chief, turned over to the committee last week.

Company executive committee minutes said that Standard had been advised Secretary of State Hull would refuse an export license for shipment of aviation gasoline from the United States to Brazil for use of the line but that "since the shipments emanated from outside the United States, Mr. Hull said he could only express the hope that it would not be necessary for such shipments to originate from any other place in the western hemisphere."

"While there is no contract covering this business," the minutes said, "the customer has been a regular customer. In view of the complications surrounding the matter, committee was of the opinion

that the quotation should be given F. O. B. Aruba."

(Aruba is the oil refining center off the northern coast of Venezuela. It is a Dutch colony.)

W. S. Farish, standard president, testified that "no delivery was made except in conformity with the policy of the department" and that deliveries to the airline were discussed with the state department and with the American embassy at Rio de Janeiro.

PHILLIPS TO HEAD SALEM MOOSE LODGE

Norman Phillips was elected governor of Salem lodge No. 571, Loyal Order of Moose, at a meeting last night in the lodge rooms.

Other officers are: Junior governor, Otto Walker; prelate, Clifford Allison; secretary, J. T. Rafferty; treasurer, Michael Bonfert. The trustees include E. L. Kutz, Gus Bonfert and George McConner. The officers will be installed at the first meeting in May. Lunch and refreshments followed last night's session.

May Freeze All Goods

WASHINGTON, April 3.—An order freezing prices of all consumer goods not already under ceiling orders, it was learned today, is under discussion between high officials of the Office of Price Administration and the war production board.

Such a blanket freezing order, to be applied at both retail and wholesale levels, has been discussed for some time, responsible OPA sources said and "the meetings have been more frequent recently." A definite decision has not been reached, it was said.

Yanks Getting Old

MONTGOMERY, Ala.—It looks as if the New York Yankees still aren't fully awake to the fact the opening of the championship season is less than a fortnight away. Two of the world champions were picked off the bases yesterday in the first three innings against Savannah of the Class B South Atlantic league.

SEATTLE—All Collins is the envy of all married golfers. He took his wife to a golf course, and in demonstrating the correct form to use on the tee, he shot a hole-in-one.

And Mrs. G. D. Rowe, Sunday evening.

The total scrap collection for Fairfield township amounted to 70 tons.

The Problems Of Rationing

Administrator Discusses Methods and Reasons, Calling for Co-operation of Public

BY JOHN T. BURNS

Q. Is a truck used to transport gasoline to a filling station an eligible vehicle?

A. Yes.

Q. Is a passenger car used exclusively to supervise manufacturing or mining operations an eligible vehicle?

A. No.

Q. Is a state barber inspector eligible for new tires?

A. The official opinion rendered by state rationing headquarters is that he would be ineligible at the present time, as other means of transportation are usually available between cities and towns. However, such an inspector may obtain a license through retreading under List B when such retreading services for passenger cars are available.

Q. When can vehicles on List B get retreads or recaps?

A. The latter part of February trucks only could get retreads. The March quota of retreads was for trucks only. No quota was given for passenger cars. Until March 25th only the trucks on List A are eligible. If by March 25th trucks on List A have not used up the retread quota, List B trucks will be eligible. A few passenger car recaps will be rationed in April.

Q. When a person is called for active duty with or who has received an order for induction into or who has volunteered or taken an oath of service for any branch of the armed service, how may he dispose of his 1942 automobile in case he has one?

A. He may apply to the local rationing board and obtain certificate Form R-202 permitting the transfer of such an automobile for personal use to any designated person. His application must be in writing, giving the name and address of the transferee, description of the automobile, name and address of the transferee and must state facts establishing the eligibility of the transferee. His eligibility must be corroborated by a written statement of an authorized officer of the armed forces or a member of the selective service board having jurisdiction of the transferee.

Q. What is a "passenger automobile"?

A. Any motor vehicle designed to carry fewer than ten passengers on the highway.

Q. What is a "new" tire or tube?

A. A tire or tube that has been used less than one thousand miles.

Q. What is a "new" passenger automobile?

A. Any 1942 motor passenger au-

tomobile irrespective of the number of miles it has been driven, or any other passenger automobile which has been driven less than one thousand miles.

Q. What is a "pool" car?

A. Any new passenger automobile which was not shipped by a manufacturer prior to Jan. 16, 1942.

Q. Can a person or a vehicle not on eligible List A nor on List B obtain obsolete size tires?

A. No. The old ruling on this has been changed. To secure obsolete size tires, one must be on the eligible list.

Q. How many passenger cars will Columbiana county have as its quota in March, April and May?

A. The entire county has been allotted 104 passenger cars for these three months.

Q. What would be the status of recapped tires belonging to private individuals which had not been delivered from the recapping establishment by Feb. 19th, even though the work was done before that time?

A. If these tires were not called for and delivered by Feb. 19th, they were to be considered as frozen.

Q. Are all physicians and surgeons entitled to tires?

A. No. If they do not make a practice of home calls, but confine their work mainly to their office or the hospital, they are not entitled to receive tires. Also they must show the local board that they do not have other automobiles under their ownership or control which could be used for the purpose of making the professional calls.

Q. Is a practitioner of osteopathy considered as a physician or surgeon?

A. Osteopathic surgeons licensed to practice surgery or obstetrics by State Law are "surgeons" under the meaning of the Act. Osteopaths, where license includes the right to administer drugs, are "physicians" within the meaning of the Act.

Q. Are chiropractors considered as "physicians or surgeons"?

A. Chiropractors not licensed as physicians or surgeons are not eligible for such classification under the tire rationing regulations and cannot be granted certificates as such.

Q. Is a farm implement or tractor which has been converted from steel rims to rims requiring tires eligible for tire certificates?

A. No. The boards are not permitted to issue certificates for such vehicles.

(To Be Continued)

Inspectors Graduate

CINCINNATI, April 3.—Thirty-five men received certificates of completion today at the end of a special 12-week course in ordnance inspection at the University of Cincinnati. University officials said the group was believed to be the first in the country to complete such a course. The men are expected to take inspection posts in war plants.

BAKE FIGHTIN' FOOD

Here's a "fightin' food"...

Complete recipe for Pillsbury's Vegetable Chowder Au Gratin

1. Combine 2 c. diced raw potatoes, cooked, 1/2 c. sliced onions, cooked, 1 c. each chopped celery and carrots, cooked; mix lightly. 2. Combine 5 Tbsp. butter and 5 Tbsp. Pillsbury's Best Enriched Flour in saucepan over direct heat. (That creamy, appetizing appearance of Pillsbury's Best is one result of the care with which this flour is milled. Every single hour during milling, samples are tested to insure this inviting color.) Add 2 1/2 c. milk gradually; stir constantly; cook until thick and smooth. Add 1 1/2 tsp. salt, 1/4 tsp. pepper, and vegetables. 3. Turn into 2-qt. casserole. Top with the following CHEESE STRIPS: 4. Sift and measure 1 1/2 c. Pillsbury's Best Enriched Flour, add 2 1/2 tsp. baking powder (or 1 1/2 tsp. double-acting) and 1/2 tsp. salt; sift together. (These strenuous tasks call for endurance, sound nerves, and the ability to stand up under hard work. That's why the two B-vitamins have been added to Pillsbury's Best—plus iron to help build red blood. These added nutrients make no change in the appearance, taste, or baking quality of the flour.) 5. Cut in 1/4 c. shortening until quite fine; add 1/2 c. grated nippy cheese. 6. Add 1/2 c. milk, about; mix until all flour is dampened. 7. Knead lightly for a few seconds on floured board. (Pillsbury's Best Enriched Flour is your best defense against baking failure. Pillsbury's Best is Bake-Proved before it reaches you! Actual baking tests are made 4 to 6 times a day during milling to give you a flour that you can absolutely depend on. The nation looks to you to give your family the best possible food values for the least money. Let Bake-Proved Pillsbury's Best help you in this important task.) 8. Roll out to about 1/4-in. thick; cut into 1/4-in. strips. 9. Place crisp-crisp over mixture, making 5 layers of strips. Brush with milk. 10. Bake in hot oven (400° F.) 25 to 30 min. Garnish with pimiento. This delicious vegetable chowder, topped with flaky Pillsbury's Cheese Biscuit is a real "fightin' food" — rich in food-energy, a good source of essential vitamins and minerals. To build 'em up for a hard day tomorrow, get a bag of Pillsbury's Best from your grocer and make Vegetable Chowder Au Gratin for tonight's supper!

Reduce WPA Rolls

TOLEDO, April 3.—WPA work in 15 of 18 counties in the Toledo district will cease as soon as necessary projects are completed, W. B. Schmuhl, district manager, announced. He said work would continue only in Lucas, Wood and Ottawa counties.

The announcement followed orders yesterday to pare rolls in the area to a new low of 5,500. Schmuhl indicated further cuts would reduce rolls to 5,000 by May 1 and 4,000 by June 1.

Uncle Sam's "Mechanic's Suit"

When in defense industries will like this trim "mechanic's outfit" that lets them work comfortably and efficiently. Available in the Anne Adams Pattern 4090. It's a Department of Agriculture, Bureau of Home Economics, design. Every detail is planned for action-freedom: gathered fullness below the back shoulder yoke allows unhampered shoulder and arm movements. . . . darts below the waist in back give sitting, stooping and bending ease. . . . full-cut legs are shaped in to the angles and fastened to avoid tripping the wearer or dragging in the dust. Even the pockets have collapsible fullness. The convertible neckline and long front opening make dressing speedy. A matching visor cap is adjusted by a draw-strap that, when released, lets the cap flatten out for ironing. The Anne Adams Pattern 4090 is available in misses' and women's sizes 12 to 20; 30 to 38.

MOUNTAIN HALTS RUNAWAY BALLOON

Snaps Three Power Lines In 300-Mile Trip From Suffield

HUNTINGDON, Pa., April 3.—A runaway barrage balloon which snapped three power lines and led a crew of airdock workers on a 300-mile zig-zag chase in two states before settling placidly on an Allegheny mountainside was deflated today for shipment to its Ohio base.

A crew of Goodyear Tire & Rubber Co. employees who trailed the big bag in a bus from its dock at Suffield, O., near Akron, finally caught up with it last night halfway up Tussey mountain in central Pennsylvania.

The balloon was found by Troy Morton, fire warden. Its safety valve was open, causing it to descend and entangle its 2,000 foot cable in the trees.

Breaking from its Suffield moorings in a high wind at 10:30 a. m. (EWT) yesterday, the balloon headed east towards Pittsburgh. It traveled fast. Goodyear broadcast warnings that it was "very dangerous" and airplane pilots were advised to look out for it. Police followed its eastward odyssey.

First damage was caused when the dangling cable struck a utility company distributing circuit northeast of Pittsburgh. Before settling on a hill near Vandergrift it snagged and tore power lines serving homes in several communities.

Before it could be anchored on the hill, the balloon soared aloft again. It snapped two more power lines before climbing to an altitude of 5,000 feet. Utility crews hastened to repair damage.

The balloon was reported to be the third to break loose from moorings at the Ohio testing grounds.

GOVERNMENT HALTS SALE OF BICYCLES

WASHINGTON, April 3.—The sale, shipment, delivery or transfer of new bicycles for adults was banned today to halt a buying rush. A rationing system will be set up soon to give defense workers first call.

Another war production board ordered restricted the use of in-plated bottle caps and fluorescent lighting fixtures.

The bicycle order applied to every bicycle with a frame measurement of more than 19 inches from the center of the crank to the head of the saddle staff post which has never been used by an ultimate consumer. It included so-called "Victory" models.

The ban on sales, a war production board spokesman said, applies "even if a bicycle was ordered and

Nazi Tire Twice As Good As Ours

Examining a synthetic rubber tire, made by Germany and reputed to be twice as good as those made by American manufacturers, are Senator Harry Truman (left), chairman of the committee investigating the defense program, and F. The investigating committee has charged Standard with conspiring with a German firm in the synthetic rubber field, thus retarding development of it in the United States.

paid for prior to the issuance of the order."

"The order was issued because of the terrific rate at which bicycles have been going to people who don't need them, with too few going to people like defense workers who have to have them now, or soon will need them," explained M. D. Moore, chief of the WPB bicycle section.

Three Aliens Are Held

CLEVELAND, April 3.—Two Italians from Alliance and a German from Canton have been taken into custody by the Federal Bureau of Investigation.

FBI officers here said no charge had been placed against the men, and that they were being held only because they were enemy aliens. They have been turned over to officials of the immigration and naturalization service, the FBI reported. The names were not disclosed. The arrests occurred Wednesday.

UNIFORM DEFENSE ORDINANCE ASKED

Associated Press:
COLUMBUS, April 3.—The Ohio State Council of Defense today asked all municipalities to adopt a uniform ordinance to protect the life and property of civilians in event of air raids or sabotage.

The model ordinance was drawn by Atty. Gen. Thomas J. Herbert. Gov. John W. Bricker as chairman of the defense council suggested it be adopted immediately.

Governor Bricker and Attorney General Herbert said the ordinance authorizes the mayor to carry out air raid protection measures as ordered by the army. It also empowers mayors to appoint special policemen to serve during blackouts or air raids. They have the same authority as regular policemen, but are required to wear an identifying emblem.

The ordinance provides penalties up to \$500 and six months imprisonment for any unauthorized person who turns in air raid alarms, gives orders for a blackout or prematurely ends a blackout or air raid.

Officials are given authority to enter upon premises with reasonable force to extinguish lights. Residents are required to extinguish all outside lights about their premises, but may keep inside lights burning if properly concealed.

Motorists are required to pull to the curb and shut off their motors and extinguish lights, except emergency vehicles.

PALESTINE WINNER IN SAFETY CONTEST

CLEVELAND, April 3.—Cincinnati won the All-Ohio traffic safety contest for big cities in 1941, scoring 67 points, 38 more than the nearest competitor. Cleveland, the Ohio State Safety Council and the Ohio department of highways, co-sponsors, announced.

The rating was based on traffic fatalities, accident reporting, traffic engineering, law enforcement, child safety and public education.

Other winners and runners-up, according to population, were:
100,000 to 250,000, Akron, Canton.
50,000 to 100,000, Lakewood, Cleveland Heights.

25,000 to 50,000, Steubenville, Norwood.

10,000 to 25,000, Parma, Wooster.

5,000 to 10,000, East Palestine, Logan.

4,000 to 5,000, Hillsboro, Port Clinton.

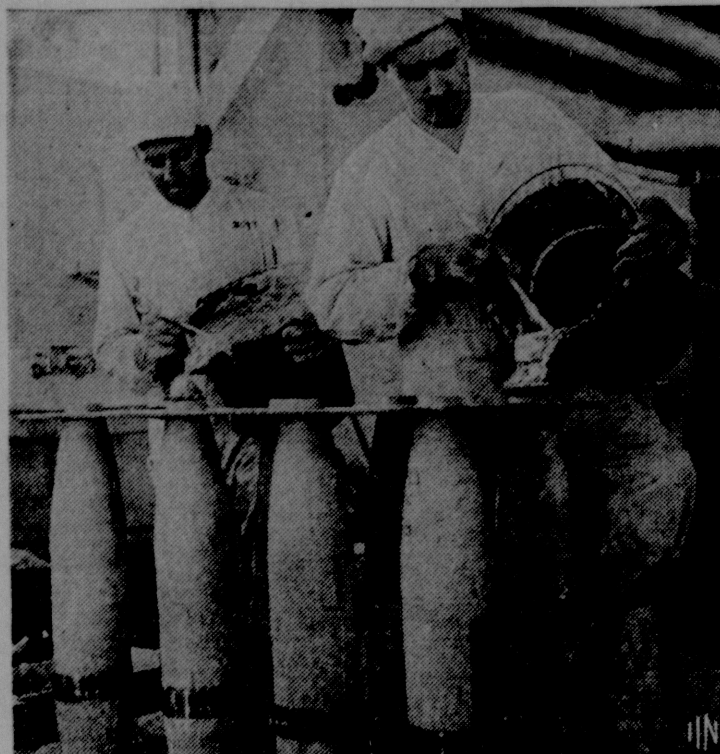

The following cities were cited for honorable mention:

Lorain, Findlay, Fremont, Athens, Bellefontaine, Bowling Green, Circleville, Delphos, Dover, Galion, Greenville, Kenton, Lockland, Nelsonville, Shelby, Sidney, South Euclid, Toronto, Troy, Urbana, Wadsworth, Wapakoneta, Wellston.

THREE ARE KILLED IN ARMY RACE RIOT

White and Negro Soldiers Battle On Plains of Fort Dix

(Continued from Page 1)

An M. P. attempted to halt the argument and had words with a Negro soldier who lunged unsuccessfully for the M. P.'s pistol, tipping the holster. The Negro ran outside and the M. P. fired a shot after ordering him to halt.

This brought a fusillade from the barracks across the road from the amusement center.

Carry n Ammunition

The Negroes had been on the firing range in the afternoon and although regulations require all troops to be searched upon leaving, some must have salvaged ammunition, Major Woldike said.

Military police deployed in front of the barracks. More than 50 bullets were fired.

The dead:
Private Manie W. Strough, white, of Honeycamp, Va., a military policeman.

Private Isaac W. Brown, Negro, Henderson, Tenn.

Corporal W. E. Hall, Negro, no address available.

The wounded, none seriously, were Corporal Millette E. Hammond, no address given; and Privates Evans Webber, Pinkley Reed, John T. Robinson, no addresses given, and I. V. Martin, Greenwood, Miss., all Negroes.

Major Woldike said some of the shooting was indiscriminate as indicated by the fact two of the wounded men evidently were hit by stray bullets. One was wounded as he lay under a table in the sports palace and another as he was taking a shower in the barracks.

Col. Herbert E. Forest, post executive officer, has started an investigation.

Runaway Horse Revives Thrill of 'Good Old Days'

LISBON, April 3.—The populace of this county seat was shocked yesterday afternoon by the sight of all things—a runaway horse.

Many a year had passed since a similar incident had occurred.

The animal, it appears, slipped its bridle, and with saddle stirrups flying, dashed about the business district, ignoring traffic lights and giving motorists a scare.

The horse was finally captured by its owner, so embarrassed that he refused to give his name.

Executive Explains Nazi Deals

Appearing before the Truman senate committee in Washington, W. S. Farish (left), president of the Standard Oil company, and Frank A. Howard, vice-president of the firm, are pictured as they defended Standard's tie-up, with I. G. Farbenindustrie, German dye and chemical trust. Senator Truman charges that Standard had frustrated development of synthetic rubber in the United States as a result of its partnership with the German firm.

NOBIL'S

MATA HARI'S Daughter

By MAURICE DEKOBRA and LEYLA GEORGIE

SYNOPSIS

Sir John Sanderson, British Intelligence chief, has just learned that Mara, his ace woman agent, has betrayed important secrets to the elusive Ajax, head of the Nazi spies in England. His aide, Capt. Hugh Kenley, also reported that a parachutist has landed near London and vanished in an unknown girl's car. Sir John realized that Mara's treason makes his official position desperate. He must resign or... As he gripped his pistol, a familiar voice outside his residence interrupted. He slipped the weapon back into a drawer when greeting his ward, beautiful Brinda Duncan, who pleads with him for war service as a spy. He is strongly opposed to this, but evades the issue. Suddenly two shots are heard from the street, and Orderly Hunt announces that Captain Kenley had been murdered. Agent Donovan, on guard duty, describes the fugitive killer as "a big fellow with a limp" who "got out of Miss Brinda's car." Dr. MacDonald, Brinda's car... Sir John is trying to question. Kenley manages to whisper a few words.

CHAPTER FOUR

Then a smile came, barely twisting the bloody lips of the expiring aide. His eyes darted a last information at Sanderson; his fingers closed on his Colonel's hand holding his. With a deep sigh, he slumped back against the doctor's supporting arm.

"That's all," said MacDonald. "He'll speak no more."

Sir John quietly returned to his study, where Brinda awaited him. He faced her with a determined look.

"Why didn't you tell me what you did all day?"

Brinda, still upset by the sight of the dying Kenley, turned astonished to her foster-father:

"What about Kenley? Did he...?"

Sir John nodded.

"Sit down, Brinda. I must talk to you. This is extremely serious."

Brinda sat facing him, still thinking of the young man who had died so suddenly.

"What would you like to know?"

"Tell me all you did today?"

"Oh, nothing. I didn't do a thing that's important. I am wasting my life. I want to be useful.... help...."

"I'm not asking about your feelings — I want to know where you've been."

"I had dinner with the Lancasters at Watford. We played one set of bridge and I left and came straight home."

"Brinda, why don't you tell me the truth?"

"The truth? But I am...."

"What about the man you picked up?"

Brenda started laughing:

"Oh, I forgot all about him. A poor fellow with a sprained ankle. But how did you know?"

Sir John took the report from his desk and showing it to Brenda, started reading it aloud:

".....a young woman was supposed to have picked him up in a yellow Bentley roadster.... Do you realize to whom you gave a ride?"

Brinda looked at him curiously.

Sir John started pacing up and down nervously:

"To a Nazi parachute spy.... to the man who shot Kenley.... and it was your fault."

Brinda sat down, speechless, her cheeks pale as death, her hands trembling.

Sanderson continued without looking at her:

"Before dying, Kenley said that he recognized your car, in front of the house. He saw the man stepping out of it.... when he began questioning him the man pulled out a gun.... shot at him twice.... he couldn't say any more."

With tears starting, she threw herself in Sir John's arms:

"I'm so sorry.... I didn't know.... I had no idea...." then, "Oh, Sandy, there must be some mistake! The man I picked up couldn't have talked like an Englishman. And yet.... there was something strange about his voice. And he didn't have much to say.... But I thought he was in pain, and was trying not to show it.... I never suspected for a moment...."

Sanderson patted her shoulder.

"Probably as well you didn't, child. The fellow would likely have killed you instead of Kenley. Never mind — we'll find him." He meditated briefly. "Could you recognize this spy, Brinda? Would you know him if you saw him?"

"Listen closely," the voice was a man's, deliberate, authoritative... "you have come into the possession of very dangerous knowledge..."

She hesitated — "I'd know his voice.... But his face.... I'm not so sure. It was dark, and I really didn't pay much attention to his face — except to notice it was clean, and not bad-looking.... And, still.... yes, I think I'd know him."

"Then," said Sir John, "it may be this unfortunate affair is a blessing in disguise. I don't like bringing you into it, Brinda. Espionage is a dirty, dangerous business, especially for women.... besides, I have other reasons.... However, what I have in mind is relatively simple — and safe. Just a question of looking over a few photos."

"Is that all? I hoped there was some risk — so I could prove how I feel. I'd do anything to help you, Sandy — anything!"

Her earnestness shone in her eyes — making Sanderson reproach himself for a half-formed doubt that, only a little while before, had cast a fleeting shadow over his feeling toward his lovely ward.

"Good girl," he said. "Between us we'll nab this fellow!"

"Tonight, I hope!"

"No, you'll have your chance tomorrow. We'll begin by looking at some pictures in my confidential files at the Intelligence Office. Be there at nine.... Now, I've things to do — downstairs."

Alone, Brinda lingered for a moment in the study, her eyes roving over its familiar contents; the walls, lined with maps and packed, ceiling-high with bookshelves; the savage Bengal tiger's head snarling above the fireplace; Sir John's big desk, flanked by filing cases, and piled high with documents. Years ago, she had learned she must never touch anything in this room; above all, anything on that desk. This was Sir John's peculiar domain, sacred to all save himself and his trusted orderly, the impassive Hunt, who stood by watchfully each day during the few minutes the Sanderson housekeeper was permitted to enter it for cleaning purposes.

A black-lettered dispatch case caught Brinda's eyes.... she could read the initials.... "H. K."... Kenley's. He must have been returning for it when he was murdered.

And it was her fault.... The result of her impulsive act in giving a lift to a strange young man, merely because he limped and looked in need. But she would make up for it, she would show Sandy. If only she could remember the man's features.

In spite of her agony, realizing that she was indirectly responsible for Kenley's murder, deep down she was happy to get the opportunity at last to be useful.

Didn't she go out of her way in school when her spoiled friend, Gladys, needed help? She had to smile, remembering her first lie to save Gladys from severe punishment when she sneaked in to the school mistress's room and corrected her own marks. She still recalled the satisfaction she felt in having helped her friend. Though she asked, was Gladys really her friend? They had completely drifted apart since they left school....

Hunt's voice broke in on her thoughts.

"You're wanted on the wire, Miss Brinda.... The housekeeping phone."

knowledge. You may be asked to help find a certain man. You are warned not to do so. Should you fail to heed this warning.... and now the voice was heavy with menace.... "You will expose your excellent guardian to disgrace, and yourself to a violent, shameful and singularly painful death.... Please do not think this is an empty threat. If you have any doubt you are in real danger, ask Sir John one question.... What happened to his pretty agent, Mara?.... Just that.... What happened to Mara? Meanwhile, for you.... Silence, or — death!"

Before Brinda could reply, a click told her the unknown caller had hung up. But the final words lingered threateningly in her ears: "Silence, or — death.... And that name — "Mara." (To be continued)

Scribe Visions Yankees Taking Pennant Again This Season

BROWNS MAY BE SURPRISE OF FLAG SCRAMBLE IN A. L.

Harmony May not Improve Tribe's Status; N. Y. Yanks Favorites

By GAYLE TALBOT
TAMPA, Fla.—This is get away week in the baseball training camps, and as the sun-tanned athletes hit the exhibition trail leading to opening day on April 14 there is talk of only one team that might possibly inject a little pepper into an otherwise unpromising Yankee-dominated American league race. That club is the St. Louis Browns.

Every manager who has met the Browns this spring says they are a good, fast outfit that "might cause a lot of trouble." A couple of pilots, whose opinion the writer respects highly, say that Luke Sewell's outfit is a cinch to climb into the first division. It was one of the three teams in the American league to play better than .500 ball after Decoration day last season, the others being the Yankees and Washington.

Here is the order, then, in which the coming war-time campaign might wind up.

(1) New York, (2) Chicago, (3) Boston, (4) St. Louis, (5) Cleveland, (6) Detroit, (7) Washington, (8) Philadelphia.

The Yankees, winners last year by a top-sided 17 games, are fundamentally so much better than any other team in the junior circuit that there is no real comparison. Sure, they haven't been looking like world champions this spring, so what? By mid-summer they will have some rival club owners pining secretly for a split season.

The Chicago White Sox, who were third last year with exactly a .500 average, appear to have the pitching to boost them up to second place this time, say about 25 games off the pace. If they make it, then the loud and persistent group which insists that Jimmy Dykes is the greatest manager in the world—not barring even Joe McCarthy—will have to be listened to with new respect.

Red Sox Tabbed Third
Boston, despite the loss of Joe Cronin's power at the plate and the fact that it is usually allergic to the draft, should have enough left to grab third. Ted Williams, one of the really great hitters of our time, probably could finish that high by himself.

Fourth does not appear too high a goal for the Browns considering the quality of this opposition. Sewell has a pair of good-looking southpaw rookie pitchers, Stan Ferriss and Frank Biscan, and another youngster named Vernon Stephens at short who might turn out to be the freshman of the year. The club, however, is very susceptible to the draft.

Cleveland has a popular new manager in 24-year-old Lou Boudreau, and the club is saturated with harmony, but that almost sums up the assets since the great Bob Feller climbed into navy blue. Barring a possible find or two among his rookies, Lou is painfully short on pitching and catching.

Detroit has won only twice since it won a pennant two years ago, and with the departure of 122-pound Buck Newsom the other day the Tigers' ribs began to show sure enough. Del Baker scarcely has enough pitchers left to get up an inter-club game. Bill Hitchcock, the team's new shortstop from Kansas City, appears to be a jewel.

Army Ruins Senators
Washington's hopes, if any, were shot when Cecil Travis and Buddy Lewis went into the service. That was all the hitting the club had, and even if Newsom is retained he can't help the situation much unless they convert him into an outfielder for his batting punch.

The selection of Philadelphia to finish eighth is purely by instinct. It is the position the A's have won in five of the last seven years.

Caps Edge Hershey, 2-1

HERSHEY, Pa., April 3.—The Indianapolis Caps moved closer to the American hockey league championship last night by routing from behind in the third period to defeat the Hershey Bears 2 to 1. Thus the Caps took over the lead in the best-of-five series by the same tally, two games to one.

SPRINGFIELD.—Farmers in Mad River township have gone back to the old-fashioned farm dinner bell. Trustees of the township have obtained 25 such bells to be sounded on air raid warnings.

The Recreation sprang a slight surprise at the Grate alleys last night when they copied two from the Commercial league leaders, Crescent Machines, to drop them into second place. Morrow was outstanding in the match as he pounded out a 604 series on the strength of games of 210, 172 and 222.

Despite this setback to the pace setters, Zimmermans slipped into the top spot by one point as they took two from Ohio Bell. Smiths, in third place, scored a shutout over the collar-dwelling Kellys to creep up a notch on the first two teams.

With Baulo's 225 showing the way, the Crescent Jrs. came through with a two game conquest of Scotts. The Crescents had a 502 total their final game. Snyder had a 213 as the Amateur Pros copied a pair from the Trades Class and the Jaycees took the same number from Shastens in another match.

The Machinists, present leaders in the Electric Furnace league kept right on rolling last night on the Masonic temple drives as they copied three from the Transformers. The Purchasers failed to hold their pace of the last few weeks and dropped a pair to Shipping.

Electrical also lost out on a chance to gain on the Purchasers but were beaten twice by the Office to blast these hopes. Byerly's 222 and 561 series helped the Office considerably.

In other matches the Draftsmen shut out Structural and Night Shift A lost three to Night Shift B.

NEW RULING SAVES MASSILLON TIGERS' STATE GRID TITLE

Elitibility of Fred Blunt Is Still Questionable: "Pokey" Defended

BY FRITZ HOWELL
COLUMBUS, April 3. — High school happenings — or what's what on the scholastic scene.

Up at Revena, last Friday night, Ohio's high school athletic board adopted a ruling which read: "Hereafter, when any ineligible boy is permitted to participate, all season games in which he plays are to be forfeited regardless of the circumstances."

And that one word—"hereafter"—probably will ease a flock of possible headaches around Massillon. Last fall, due to several protests, Commissioner Townsend checked for two full weeks to ascertain the age of Fred (Pokey) Blunt, captain and backfield ace of the Terrific Tigers. The commissioner came up with the information that "Pokey" was not over age, as the critics declared, but that he had been born Sept. 19, 1922, making him only 19 during the grid campaign.

However, Blunt applied for a marriage license not so long ago—and the Stark county records show he listed his age as 21—which would have put him past the 20-year mark, and ineligible, last fall.

Mr. Townsend rushed to Blunt's defense, however, with: "He probably thought he'd have trouble getting a license if he was under 21, so maybe he hunched his age a year or so. He's only 19."

Anyway, due to the "hereafter" erasing all retroactive possibilities, Massillon will keep its record of nine wins and a tie, and its claim to a seventh straight state grid title.

These Bucaneers of Xenia Central High school were pretty excited last Saturday after winning the state Class A cage crown at Kent—but they shouldn't have gone home without taking the title trophy along. If it had not been for the loss of a diamond by a Xenia woman, the huge "Johnny Miner" award wouldn't have been on hand for the big homecoming scene when the victors returned to Greene county.

Argues to Get Trophy
The tale going the rounds has it that Mrs. Fleming Watt, local Xenia fan, was driving home from Kent after the game when she noticed the diamond was missing from her ring. She returned to the Kent gym to seek it. The gem had been found and was returned to her, and as she started home the second time she noticed the big trophy was still there, although the Bucaneers had departed.

She claimed the cup, and backed up her claim with such vim and vigor that it was turned over to her. She raced for Xenia with it, and the big trophy was very much on display when the team was greeted early Sunday.

Athletes Disgraced
We wonder how the boys in three northern Ohio high schools feel now that their acts have involved their institutions in unfortunate publicity.

At one school the athletes are baseball holdouts until they get their football and basketball letters. The gridiron monograms are being held up until some 24 grid jerseys are returned, while the basketball letters are withheld because the boys boasted openly they didn't keep training.

At another school the spring grid practice has been called off until three pairs of stolen football shoes are returned; while another school is not giving out reserve basketball letters because the boys broke rules, one being with forging the name of the athletic director to a tournament entry blank, and another with competing with an independent team under an assumed name.

McKinley Takes 6th Grade Title, 27-21

Taking an early lead and holding on to it throughout the game, the McKinley passers captured the Mickey McGuire championship by defeating a valiant Reilly quintet, 27-21, last night at the Memorial building. It marked the first time in five years that Columbia St. school had not annexed the trophy.

Once more Tommy Mayhew paced the attack of the boys from Cleveland st. as he dropped in 13 points, mostly on one handed tosses. His sparkling offensive play kept the McKinley cagers in front almost all of the time while his defense left little to be desired. Pager, a tall rangy youth, paced the Reilly assault as he tallied three-two-pointers and a pair of free throws for an eight-point total.

Aside from these two big guns, all the scoring for both teams was pretty well divided. The win was the second straight of the series for McKinley as Reilly took the first game by a narrow margin and the second went to the Cleveland Street quintet by one point in an overtime.

Joe Kelley announced today that the Mickey McGuire softball league would get under way right after the end of Easter vacation. This title has also been monopolized by the Southsiders and the squads hope to snap that monopoly just as they did in basketball.

Four Share Golf Lead

ASHEVILLE, N. C., April 3.—The Asheville open demonstrated today the incredible fact that a golf tournament can be a pleasant event.

Four men are tied for the lead at 69, four more counted 70, and six at even par 71.

As play moved into the second 18-hole round, the leaders were Byron Nelson, of Toledo, former open and PGA king; Lawson Little, Jimmy Hines, and Herman Barron.

Williams Injures Foot
CHARLESTON, S. C. — Slugger Ted Williams of the Boston Red Sox is limping a little today after having been hit on the left foot by Pitcher Bucky Walters of Cincinnati yesterday. "It hurts a little and is a little stiff," said Ted. Manager Joe Crain, taking no chances, ordered X-rays.

cause the boys boasted openly they didn't keep training.

At another school the spring grid practice has been called off until three pairs of stolen football shoes are returned; while another school is not giving out reserve basketball letters because the boys broke rules, one being with forging the name of the athletic director to a tournament entry blank, and another with competing with an independent team under an assumed name.

NED DAY, BOWLER DELUXE, SEEKING NEW FAME AT ABC

National Champ In Debut With Milwaukee Pabst Beers Tomorrow

COLUMBUS, April 3.—Ned Day—idol of the run-of-garden legions—today drew linked alleys for his 13th crack at the American Bowling Congress prizes.

Many bowlers sleep only in seventh-floor hotel rooms and hope for assignment to "hot" alleys where big scores have been made. But Day, national match game champion since 1938, scoffs at such superstitions and performs best on drives where scores were low—until he takes over.

Not one of the leaders in the four tournament events came from alleys 9 and 10, where the West Allis, Wis., bowler makes his first bid for 1942 ABC honors. Nine has a particularly bad record.

It was there that Joe Bodis of Cleveland, who held a record 10-year average of 205, was rolling when he injured his back and hit a slump that ruined his chances for all-events leadership.

Bodis, after racking up a sparkling 717 the night before, started his singles with 127, followed with 142, then walked off the alleys without finishing.

Day hit the big time 12 years ago and has stayed at the top with a lifetime ABC average of 202. Others have topped that mark, but Day's pace got dizzier as he turned in a 204 average for the past 10 years, then upped it to 209 for the last five.

Day took the national match game title four years ago after Hank Marion of Santa Monica, Calif., retired as champion, and since then the biggest tournament crowds have watched him unlimber his Sunday hook.

Day sees action tomorrow night with the Pabst Blue Ribbon team of Milwaukee and will fire for singles and doubles records Sunday.

Harris On Spot

ORLANDO, Fla.—No matter whom Bucky Harris selects to pitch for the Washington Nationals in their season opener against the New York Yankees April 14, somebody is going to be jealous. Buck Newsom, Washington's newest acquisition, is campaigning for the assignment. So is Dutch Leonard, who has started the openers the past three years.

Fleming Bats In 7

DALLAS, Tex.—Les Fleming's bat is helping him make a strong bid for the Cleveland first base job vacated by Hal Trosky. Les homered, tripled and single yesterday, driving in seven runs as the Indians walloped the New York Giants, 11-5. In nine games against major league pitching, Fleming has made 16 hits in 31 times at bat.

SPORT CHATTER

By HUGH FULLERTON, JR.

NEW YORK, April—Shear nonsense.

James D. Doyle of the Cleveland Plain Dealer suggests Lem Franklin "fell a victim of Bobonic plague" in Pittsburgh the other night. And the same paper ran this self-explanatory headline: "Johnston takes floor but Simon had it first."

... Eddie Jones of the Champaign-Urbana (Ill.) Courier reports that Phog Allen's nickname was acquired during his umpiring days and not because he appears to be in one with arguments concerning college athletics.

Shore Short Story

They tell one about the time Joe Louis played a round of golf with crooner Bing Crosby. For 16 holes Joe didn't say a word. On the 17th he was short on a six-foot putt. As he handed his club back to his caddy, Louis remarked: "I'm a sissy."

Today's Guest Star

John Mooney, Salt Lake Telegram: "From the talk going around, you'd think Buck Newton was the first boondogglor ever sent to Washington as a senator."

Future Book

A big San Diego (Calif.) shipyard had formed a "Naval Construction Athletic league" and plans to stage some classy fight shows with talent drawn from the 35 boxers on the payroll. A fast baseball team also is in prospect. Ted Williams tells a Boston scribe: "No matter what happens during the coming season, I'm going to enlist when it's over."

And, speaking of future books,

whatever became of the ones that used to operate on the Kentucky Derby?

HOLLISTER, Calif. —

Hollister schools and the junior college will open a month later next fall, school trustees decided. The delayed opening will permit students to help with county harvests and offset the expected labor shortage.

Signs of War on a Hawaiian Playground

A P-40 fighter plane is parked on a golf course in Honolulu, ready to go aloft on a moment's notice as the Hawaiian defenses are girded against any future surprise attack. In the foreground, tin cans hang on wires, excellent alarms to warn of the approach of saboteurs.

SAN FRANCISCO—Built originally for pleasure, Treasure Island, largest man-made island in the world, and site of the 1939 and 1940 San Francisco Fairs, has just been awarded the Navy's "E" pennant for excellency of work performed by navy crews there. It is now being used as a base for small warship training and reconstruction of small ships.

BOISE, Ida.—Tire rationing was given credit by state officials here for reducing the number of traffic deaths during January and February to 15 as against 21 for the same period last year.

The scientific name for the mocking bird, *Mimus polyglottos*, means many-tongued mimic.
